

Save-On-Foods FREQUENTLY ASKED QUESTIONS

What is so unique about the Save-On-Foods grocery model?

Save-On-Foods is known for customizing its grocery offering to meet the needs of each community served. Along with the traditional grocery offering, Save-On-Foods carries a wide variety of international products; proudly carries locally-made products; makes fresh meals every day in the store; and stays ahead of the curve on food trends. From seasonally-flavoured artisan sausages to hand-stretched, Napoli-style pizza to chocolate-dipped marshmallows and other confections, Save-On-Foods has fun with food and inspires the same creativity in its customers. With services such as online shopping (delivery or pickup) and in-store meal ideas in the Fresh Solutions Centre, Save-On-Foods makes grocery shopping easier than ever.

How does Save-On-Foods incorporate sustainable design into their stores?

- Energy-efficient lighting
- Energy-efficient refrigeration to promote our global warming-sustainability efforts we will be installing a CO2 refrigeration system at University District
